

**MEGAMAX**

# UNIQUE

in North America

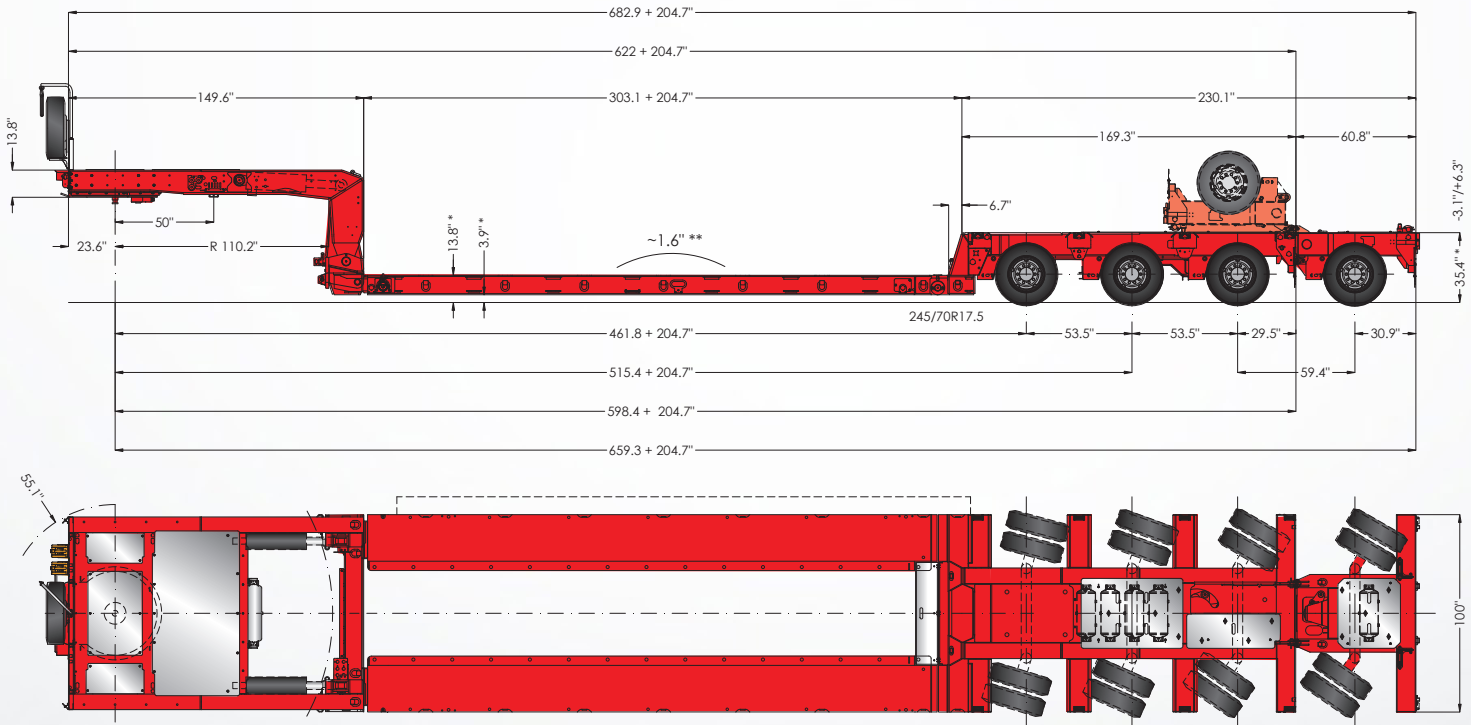

**NEW!** 4-axle double drop with **steerable** pin-on flip

- + Ensures more legal pay load capacity if needed
- + The pin-on axle can be flipped for empty transport
- + Available with 2 decks (minideck & stretch deck)
- + Chassis fully zinc-plated (metallization)

**MEGAMAX**

**4-axle double drop with steerable pin-on flip**

Mega-Z-4(3+1)L-V-KBX-A-30AT-7.70(2.54)-17.5-2.54-US

- + Simple-to-use and robust mechanical link between the steering of the 3-axle bogie and the pin-on – no hydraulics required
- + Payload capacity up to 95,000 lbs within 20,000 lbs/axle, technically up to 105,000 lbs at 22,700 lbs/axle
- + Optimal load transfer via air ride
- + Hydraulic lifting/lowering of the gooseneck for highest flexibility
- + DOT approved components
- + 2 decks available:

**MINIDECK**

10.8" loading height  
Steel construction on the whole width  
Allowing maximum point loads  
Ideal for transformers, generators

**STRETCH DECK** - The lowest in the US

13.8" loading height  
Stretches from 25' to 42'  
Can be further extended with more inserts  
Extremely versatile use (industrial components, machinery, transformers, oversize containers)
